

Sentinel C-20 PLUS

APPLICATION BULLETIN #132A

June 6, 2002

The new Sentinel C-20 "PLUS" instrument offers many new features that enhance its performance and application flexibility.

Quik Test *Reduces test timer by up to 80% for parts that are clearly going to pass or fail*

High flow manifold with long cycle life of 15M cycles *Reduces pre-fill and exhaust times by up to five times, therefore significantly reducing total cycle time on larger parts*

Cyclone high speed version *Performs rapid leak tests as fast as 0.5 seconds total cycle time for quick process verification*

Vacuum range *0 – 14.7 psiv tests with high flow manifold*

Multiple Part Program Holders *Four separate program holders can be selected using the keypad or PLC inputs*

More Test Result Storage *500 test results are stored in memory for eventual download via the RS232 port to PDA or computer*

Data streaming *Test pressure measurements can be collected from the RS232 port for profiling the pressure decay curve*

**CE Certified
UL Approved** *Only 24 volt DC models are CE approved.
All models*
